

1956 BENTLEY S1

Year : 1956

£0.00

Finished in black over shell grey with red fine lines, grey hide interior, grey carpets and headlining and wood facias in traditional burr walnut.

This power steered car has been known to RR&B Garages since 1994 when we had the pleasure of restoring it for the former owner, following this in 2000 it went on to receive RREC 1st in class Concours award and BDC Concours awards in the same year too.

RR&B Garages supplied it to the current owner in 2009, who has cosseted it and maintained it with ourselves to retain its fabulous condition.

An extensive history file and portfolio accompanies the vehicle with records indicating this is a 5 owner car with receipts and invoices dating back many years.

This car is also a true pleasure to drive and a viewing is strongly recommended to fully appreciate the condition and provenance of this beautiful motor car.
