

BENTLEY S1 CONTINENTAL MULLINER

Year : 1956

£385,000

An Exquisite Example with Provenance, Refinement, and Sensible Upgrades

Finished in timeless Metallic Silver and complemented by a beautifully preserved Dark Green hide interior, this exceptional S1 Continental Mulliner boasts a recently refinished bur walnut veneer, restoring the cabin's traditional elegance to its former glory.

This particular example benefits from a number of tasteful and period-appropriate enhancements, including factory-original Power Steering components and the addition of air conditioning for improved comfort – upgrades that make it significantly more enjoyable and practical for modern touring, without compromising its originality.

The vehicle comes with continuous ownership history and retains its original buff logbooks, offering invaluable provenance. Known to and maintained by the renowned RR&B Garages since 2001, it has been carefully looked after on behalf of its last two custodians.

Currently undergoing a comprehensive brake service and additional mechanical works, this car is being prepared to the highest standards to ensure it ranks among the finest examples on the market today.

A true pleasure to drive, this Silver Dawn delivers the quintessential Rolls-Royce experience – smooth, graceful, and unmistakably dignified. Viewing is highly recommended to fully appreciate both the condition and pedigree of this outstanding motor car.

This fabulous motorcar also comes with our 12 Month warrantee.
