RR&B
GARAGES

This is one of the final cars to be built and is unique as has all the Mulliner specification but standard wheel arches, it also has the final series Alco braking system.

Finished in Dark Oyster metallic, Mulliner quilted trim in Redwood hide, Burr Walnut veneered fascia. Hide steering wheel with embossed winged "B" logo and a Redwood hood.

This was commissioned by Bentley to use as a press car and to feature on the stand at the British Motor Show. The car then joined the Bentley Heritage collection until 2022 when P&A Wood sold the car for Bentley Motors Ltd to the first owner at 12,200 miles.

This car has been maintained to the highest standards, from 03 to 07 by Bentley Press and special car division, from 07 at 11,600 miles the car covered a further 600 miles while in the heritage collection. Service by P&A Wood in 22 at 12,100 miles & again in 23. RR&B Garages have known this car since 22 and has been maintained regardless of cost for the current owner now covering 22,128 miles.

The owner has covered just over 10,000 trouble free miles doing manly long-distance touring trips to France and Scotland, attending BDC tours and concours where the car has been awarded first in class.

This car is a true pleasure to drive, and viewing is strongly recommended to fully appreciate the condition and provenance of this beautiful motor car.

VEHICLE DETAILS

Vehicle	Bentley Azure Mulliner
Year	2003
Colour	Dark Oyster metallic
Interior	Redwood hide
Transmission	Automatic
Warranty	12 Months
Mileage	22,218 Miles

£110,000
